

Welcome to

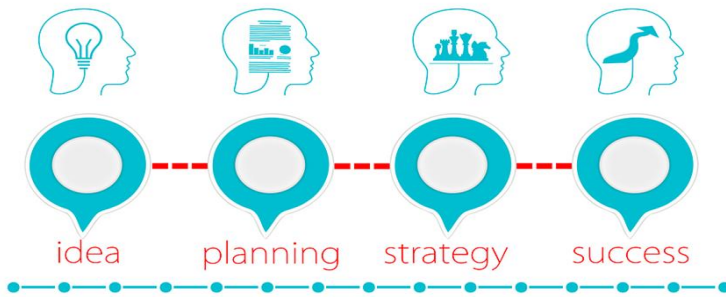

Dynamic Vishva Software

“...Make Your Business Online With Us”

A Leading Software Company

About Us:-

*It's not simple all about business, but with Consistent Efforts and Standard of Work you can deliver any type of service or product to client so we do the same in **Software** and **Mobile Application**. The consistency provides the foundation upon which, in combination with our*

added creativity, we have able focus on total Customer Satisfaction.

Being online in every sense is need of time? So why not your business processes make online. We are team of developers under Company name Dynamic Vishva; provide solutions in Software, Mobile Applications and Websites.

In our experience small businesses repeatedly come up against the same barriers like No Online presence, No online data, Inventory and projections based on data etc.

This is why we offer a tailored solution, building in multiple pathways for Website, Inventory Management, Online data on previous behaviour, all of which will be fully automated with help of software and mobile applications.

Once we're agreed on a game plan, we will deliver the work in pre-arranged phases, including pre- and post-launch testing of software solution.

Vision

*To provide **timely & quality** Software and Services that exceeds the expectations of our esteemed clients.*

Mission

*To build a **long term relationship** with our customers and clients by giving business through innovation and advanced technology.*

Core Values

Web Development

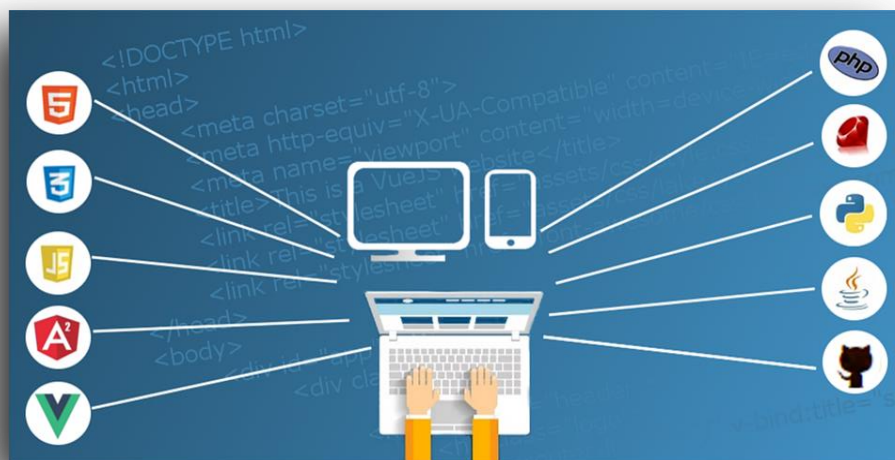

Web development services are the core of our business. We provide a wide range of professional services in the development of web and intranet applications of any complexity. Our highly talented team endeavours to develop web applications that can become an invaluable asset for your company.

We provide complete and comprehensive solution for all phases inclusive of design, development, deployment and maintenance. We feel that by being a full-service company, we are able to provide our clients with a complete understanding of the Web.

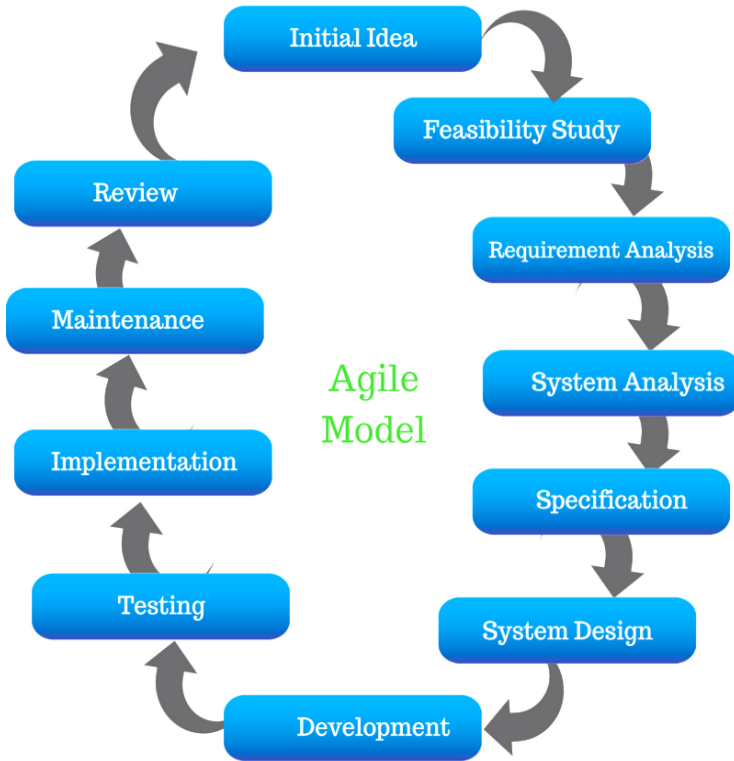

We believe that success lies in maintaining open communication and involvement with our clients through each phase of development. We will make every attempt to understand your business and your customers. Our goal is to translate your vision into reality by being your technology partners.

PRACTICE AREAS:-

- Custom Web Design & Development
- Web Apps
- E-Commerce Solution & Storefronts
- Enterprise Portal Development
- Application Maintenance

Software Development Services

Since inception we have been providing state of the art Custom Software Solutions to midsize/large organizations. In developing custom software, we see our role as partners, not merely programmers. We recognize that solutions succeed not solely for technical reasons, but because end-users and internal IT staff feel ownership.

Our AGILE model development capabilities offer significantly reduced development time and savings in developing, implementing and maintaining custom Enterprise applications.

Open Source & CMS Customization

Dynamic Vishva Softwares specializes and provides customization and development services for CMS and Open Source web based applications on platforms like Joomla, Magento and WordPress. Dynamic Vishva Softwares has dedicated and versatile teams that excel in coding (PHP / .Net / MySQL) as well as designing (CSS, HTML). We work closely with clients to deliver the projects with excellent quality and within the Turnaround Time. Our team puts extreme efforts to identify the best options that suits client's business needs.

WHY OPEN SOURCE MATTERS?

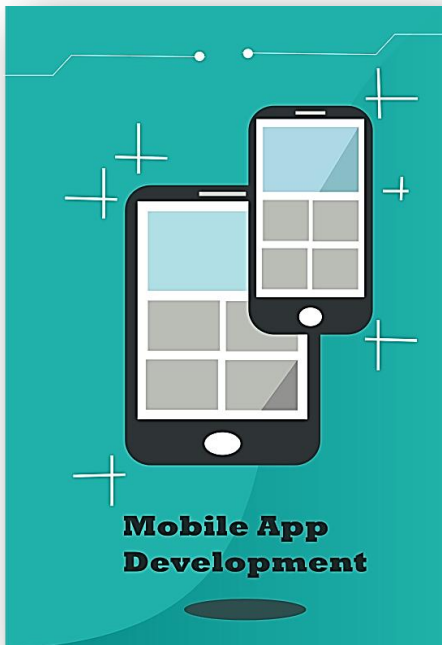

Dynamic Vishva software' s helps in open source customization of various products to suit your needs by creating templates, adding custom modules or changing the product functionality. Our strength lies in providing Open Source Customization services on different products..

Dynamic Vishva can design, develop, and implement a WordPress system to suit your specific requirement. We have thorough HTML and CSS knowledge, and experience in WordPress blog customization. Using the current theme will **save your time and costs**. Moreover, our managed hosting services provide an optimal environment for platforms of WordPress to operate in, that ensures best performance.

At DV we have experts and providers of Magento e-commerce solutions. We are playing a critical role in the continued adoption and growth of Magento. We provides Magento Ecommerce based online stores ecommerce solutions, which can help the online merchant to get total **control and create no restraints on the business process or flow that is involved**.

Joomla! is one of the world' s most powerful system of Open Source Content Management. It is used worldwide for everything from simple websites to complex corporate applications. Joomla is easy to manage, easy to install and reliable. If the functionalities of CMS are not enough for you, Joomla let you add extra tools on your website. With Joomla you can have ecommerce, gallery add-ons, and forums and so on. DV is specialized in open source customization in Joomla CMS and recommends Joomla CMS solutions wherever necessary.

Mobile Application Development

The growing popularity of Smartphones is packing all sorts of bells and whistles. Powerful processors, abundant memory, larger screens, and potent operating systems are enabling users to do most of the chores without using their computers and laptops. The ability to communicate by sending instant messages and e-mails, access the Internet or get directions via GPS are just some of the many features that handset owners are growing progressively more inclined to utilize. This is opening a lot of opportunities for visionaries all over the world; we can assist you to translate your idea into reality.

We create value-added applications tailored exactly to your specific business requirements for **enhanced efficiency, functionality and value addition**. Business Technologies is vastly experienced in developing and testing Mobile Applications.

“ Our team has a passion for **Mobile Application development** and we always follow new trends and changes in this high-tech arena. We have proficient technical teams to deliver complete solution, from **design to development**.

MOBILE DEVELOPMENT SERVICES:-

Android Application
Windows Application
IOS (iPhone / Ipad)

Custom CRM & ERP Solutions

We have been providing state of the art custom enterprise solutions to midsize to large organization (having Turnover above 50lakh). In developing custom applications, we see our role as partners, not merely programmers. We recognize that

solutions succeed not solely for technical reasons, but because end users and internal IT staff feel ownership.

ERP Development Services:-

- Customer Relationship Management
- Supply Chain Management
- Management Information Systems
- Sales Management Accounting and Financial Management
- Material Planning
- Quality Management
- Inventory Management
- Production Management

Out-Sourcing Work (Domestic)

Dynamic Vishva also provides MIS outsourcing services to small and medium sized businesses in order to improve their IT infrastructure and to streamline business processes and performance. We are currently relieving a number of SME's of the burden of having full time and costly internal IT employees. Using our team of professionals you will obtain the best of breed advice and expertise.

Some of our clients outsource small portion or all of their IT support to us but they all benefit by having:

- Business Grade IT Support
- Guaranteed Response Times
- Expert Technology Advice
- Broad Business Knowledge
- Friendly Customer Service
- Professional Trackable Systems

Offshore Out-Sourcing (International)

Taking advantage of our growing nature of services we are looking forward to take Advantage of Offshore Out-Sourcing of services further. Providing competitively price offshore software outsourcing services is what we looking for is new avenue of business. Since Businesses are evolving and becoming more and more demanding and globalized as well. We have the expertise and resources in delivering high quality outsourcing services in Software Development at very competitive pricing structures to companies worldwide. Our well defined and tested processes have enabled us to transition into offering a wide range of services by sustaining the same quality, effectiveness and responsiveness that define our service standards.

Offshore outsourcing is a cost effective alternative to developing software in-house. Outsourced development at Business Technologies safeguards the client's intellectual property, proprietary software and new development specifications with very high levels of security and depending on engagement models clients can retain full ownership of all intellectual property rights at the completion of the project. Business Technologies follows a highly procedural approach towards offshore software development outsourcing, where each step in the project life cycle is clearly defined and documented.

VALUE PROPOSITION :-

- India is an outsourcing hotspot.
- Delivering world class solutions using latest

technologies.

- **Low cost advantage (LCA)** – Very competitive and flexible pricing model structures.
 - Rapid project team mobilization.
 - Low attrition rates.
 - **Speed of delivery** – blended onsite/offshore advantage.

We leverage our diverse and sound consulting and development experience in Business Technologies by providing comprehensive and competitively priced scalable IT outsourcing solutions spanning across these domains

Project based | Product development | Resource outsourcing | Managed IT.

DEDICATED OFFSHORE TEAM MODEL

With the dedicated team model, you will have a team of personnel working exclusively 40 hours per week for you under your optimal control and thereby getting the job done as per your business needs and requirements. Business Technologies will create project teams with the required project managers, team members and the necessary equipment and infrastructure based on your business needs.

TIME & MATERIAL MODEL

The time and material model is suitable for complex projects where changes need to be met rapidly on an ongoing basis based upon upcoming market trends. This model gives the clients the flexibility of amending the project specification while the project is moving on.

“Growth is Inevitable”

After all, we are all set to make Development and Growth of ourselves hence we are on for the Opportunities.

Social Presence of The Company

Taking advantage of great Social Media Platforms, we are very glad to have our presence on Social Media Platforms. Where we share interesting Information and Content related to industry with promotional purpose as well.

Working Style

Waterfall Model

Agile

Waterfall Model

Liner Sequential Life Cycle. Project Development Team only moves to next level only if previous is completed. It' s helpful for smaller projects.

Agile Model

That helps **continuous** iteration of development and testing. Development and Testing activities are concurrent. More communication with all stakeholders.

It' s helpful in Medium and Big size projects.
